- **Programming Languages:** JavaScript, TypeScript
- **Tools & Platforms:** Firebase, REST API, Jira, Bitbucket

WORK EXPERIENCE

Junior software developer - Crek   **FEB 2024 - MAY 2025**

- Developed dynamic and responsive user interfaces using Angular for enterprise applications.
- Integrated RESTful APIs to optimize data flow and application performance.
- Built custom UI components with Angular Material, improving overall user experience.
- Enhanced form handling, validation, and state management for smoother user interactions.
- Applied responsive design techniques for compatibility across various devices.
- Continuously improved UI features and performance in a large-scale Angular application.
- Collaborated in agile sprints, managing tasks through Jira and code via Bitbucket.

EDUCATION

Bachelor of Technology in Mechanical Engineering   **2016 - 2020**
Pondicherry Enginnering College

PROJECTS

Personal Portfolio Website   **GITHUB**
- Built a responsive portfolio website using React and Tailwind CSS to showcase projects, skills, and contact information. Designed with a clean UI and smooth navigation for a professional online presence.

Mini E-Commerce Web App   **LINK | GITHUB**
- Developed a basic e-commerce application with functionality to view products and add items to the cart. Built using React.js, focusing on component-based architecture and an interactive user experience.

Simple Health Care Application   **LINK | GITHUB**
- Created a single-page health care web app featuring Home, About Us, Services, Doctors, and Blogs sections. Implemented a responsive layout with smooth scrolling for an informative and user-friendly interface.
